Subject & Course No.	Descriptive Title	Semester Credits
F:	Calendar Description: This course surveys the scope, goals, and major discoveries of physical anthropology, dealing particularly with human biological evolution, the hominid fossil record, and pres	

M: Course Objectives / Learning Outcomes

At the conclusion of the course the student will be able to:

1. Discuss scope and goals of physical anthropology, and its place within and contributions to the broader discipline of anthropology.
2. Discuss the major subfields of physical anthropology and the research techniques employed by each.
3. Outline the major theories of biological evolution, from Darwin and Mendel to the modern synthesis.
4. Identify major skeletal elements of the human body.
5. Discuss the importance of studies of our closest relatives, the non-human primates, to the understanding of human biology and evolution.
6. Discuss the hominid fossil record: how it is formed, major discoveries and interpretations, and the limitations inherent in the data.
7. Assess the major techniques of dating fossil discoveries and their limitations.
8. Discuss modern human physical diversity and theories on the adaptive value of such inherited traits.

<p>O: Methods of Instruction</p> <p>Course content will be conveyed through lectures. Extensive use will be made of human skeletal elements and casts of fossil hominid discoveries at relevant points in the class presentations. Videos and slides will also be used to present course material.</p>								
<p>P: Textbooks and Materials to be Purchased by Students</p> <p>Texts will be updated periodically. A typical example would be:</p> <p>Jurmain, R., H. Nelson, L. Kilgore & W. Trevathan. (2001). <u>Essentials of Physical Anthropology</u> (4 ed.) Wadsworth.</p>								
<p>Means of Assessment</p> <p>The evaluation will be carried out in accordance with Douglas College policy. The instructor will provide a written course outline with specific evaluation criteria at the beginning of the semester.</p> <p>An example of an evaluation scheme would be:</p> <table style="width: 100%; border: none;"> <tr> <td style="padding-left: 20px;">3 exams (each on 1/3 of the course – 25% each)</td> <td style="text-align: right; padding-right: 20px;">75%</td> </tr> <tr> <td style="padding-left: 20px;">2 identification quizzes (5% each)</td> <td style="text-align: right; padding-right: 20px;">10%</td> </tr> <tr> <td style="padding-left: 20px;">1 short paper (on a specific aspect of interpreting the fossil record)</td> <td style="text-align: right; padding-right: 20px;">10%</td> </tr> <tr> <td style="padding-left: 20px;">Attendance and Participation</td> <td style="text-align: right; padding-right: 20px;">5%</td> </tr> </table>	3 exams (each on 1/3 of the course – 25% each)	75%	2 identification quizzes (5% each)	10%	1 short paper (on a specific aspect of interpreting the fossil record)	10%	Attendance and Participation	5%
3 exams (each on 1/3 of the course – 25% each)	75%							
2 identification quizzes (5% each)	10%							
1 short paper (on a specific aspect of interpreting the fossil record)	10%							
Attendance and Participation	5%							
<p>R: Prior Learning Assessment and Recognition: specify whether course is open for PLAR</p> <p>No.</p>
